

## James Bornholt

<b>Contact</b>	Computer Science and Engineering Box 352350 Seattle, WA 98195-2350	bornholt@uw.edu <a href="https://homes.cs.washington.edu/~bornholt/">https://homes.cs.washington.edu/~bornholt/</a>
<b>Education</b>	<b>University of Washington</b> , Seattle, WA, USA	
	<i>PhD, Computer Science and Engineering</i>	September 2014 – present
	<ul style="list-style-type: none"> <li>Advisers: Luis Ceze and Dan Grossman</li> </ul>	
	<b>Australian National University</b> , Canberra, Australia	
	<i>Bachelor of Philosophy with First Class Honours and the University Medal</i>	January 2010 – December 2013
	<ul style="list-style-type: none"> <li>Majors in Computer Science and Mathematics</li> <li>Thesis: <i>Abstractions and Techniques for Programming with Uncertain Data</i>, advised by Steve Blackburn</li> </ul>	
<b>Publications</b>	<b>Conference Papers</b>	
	J. Bornholt, T. Mytkowicz, and K.S. McKinley. <i>Uncertain(T): A First-Order Type for Uncertain Data</i> . In ASPLOS 2014, Salt Lake City, UT, USA, March 2014. <i>ACM SIGPLAN Research Highlight, November 2014</i> .	
	<b>Workshop Papers</b>	
	J. Bornholt, T. Mytkowicz, and K.S. McKinley. <i>There's Something About Bayes: Effective Probabilistic Programming for the Rest of Us</i> . In APPROX 2014, colocated with PLDI 2014, Edinburgh, UK, June 2014.	
	<b>Posters</b>	
	J. Bornholt. <i>Uncertain(T): A First-Order Type for Uncertain Data</i> . In PLDI 2013, Seattle, WA, USA, July 2013. <i>Second Place, ACM Student Research Competition Grand Final, 2014. Winner, PLDI Student Research Competition, 2013</i> .	
	J. Bornholt, T. Mytkowicz, and K.S. McKinley. <i>The Model Is Not Enough: Understanding Energy Consumption in Mobile Devices</i> . In Hot Chips 24, Cupertino, CA, USA, August 2012.	
<b>Experience</b>	<b>Microsoft Research</b> , Canberra, Australia	
	<i>Software Engineer</i>	January 2014 – September 2014
	Implemented and extended Uncertain(T) to handle more complex problems through Bayesian inference.	
	<b>Microsoft Research</b> , Redmond, Washington, USA	
	<i>Research Intern</i> , Research in Software Engineering (RiSE) group	November 2012 – February 2013
	Designed Uncertain(T), a first-order type for programming with probabilistic data (e.g. GPS data).	
	<b>Microsoft Research</b> , Redmond, Washington, USA	
	<i>Research Intern</i> , Research in Software Engineering (RiSE) group	November 2011 – February 2012
	Designed and implemented a technique for profiling application energy usage on mobile devices.	
	<b>Google Summer of Code</b>	
	<i>Jikes RVM</i>	Summer 2011
	Implemented the JVM Tools Interface (JVMTI) in Jikes RVM, an open source JVM written in Java.	
<b>Service</b>	Students advised:	
	<ul style="list-style-type: none"> <li>Emily McAlister, B. Software Eng., ANU, 2014 (co-advised with Steve Blackburn and Kathryn McKinley) Thesis: <i>The Relationship Between Software and Hardware Energy Consumption on Android Mobile Devices</i></li> </ul>	
	Paper reviews: ASPLOS 2015	
<b>Awards</b>	<ul style="list-style-type: none"> <li>David Notkin Endowed Graduate Fellowship, University of Washington, 2014–2015</li> <li>Second Place, ACM Student Research Competition Grand Finals (undergraduate category), 2014</li> <li>ANU University Medal for Computer Science, 2013</li> </ul>	

- Winner, ACM PLDI Student Research Competition (undergraduate category), 2013
- ANU Erin Brent Computer Science Prize, 2013
- ANU College of Engineering and Computer Science Dean's Prize, 2013
- ANU Boyapati Computer Science and Mathematics Prize, 2010, 2011 and 2012

**Technical  
Experience**

Programming languages: Experience with Python, Java, and C. Familiarity with C++, C#, JavaScript.  
Other: HTML and CSS; Mercurial, Git, and Subversion; Mac OS X and Linux; LaTeX.
